

FIRST MILLION VIEWS / EMAIL KONG

BOGDAN

WHAT TO FILM.

90 videos. Six sessions over three weeks.
Every hook is written for you. Film it, upload it
raw, we handle the rest.

6

SESSIONS

~2.5h

EACH

90

VIDEOS

HOW THIS WORKS

- 1 Film the list.** Each video has its own page. The first line is written word for word. Everything after it is bullet points. Talk through them like you would on a call.
- 2 Upload everything raw.** Every take, mistakes included. Don't trim, caption, or filter anything.
- 3 We edit and send it back.** You approve within 24 hours, then it goes live.

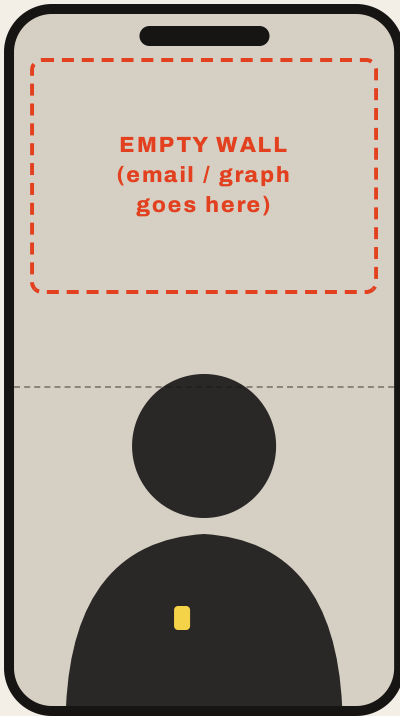

FOUR RULES ON SET

- **Say the video number first.** "Video 9, take 2." Then a 1-second pause, then the hook.
- **Hook three times.** Three different deliveries of the first line, then go straight into the rest.
- **Start talking the moment you hit record.** Pauses and stumbles get cut, so keep going.
- **Under 60 seconds per video.** If you go long, we cut it down. Don't restart.
- **Film the sessions in order.** Session 1 is Black Friday content, so it can't wait.

stuck on a video? Skip it. Film the next one.

SET UP ONCE · 10 MINUTES

SETUP

FRAME

Phone **vertical**, chest up. **Leave the top third empty.** That's where the email or graph goes.

LIGHT

Face the window. Add your light only if it's dark.

MIC

DJI Mic 3 clipped on, receiver plugged into the phone.

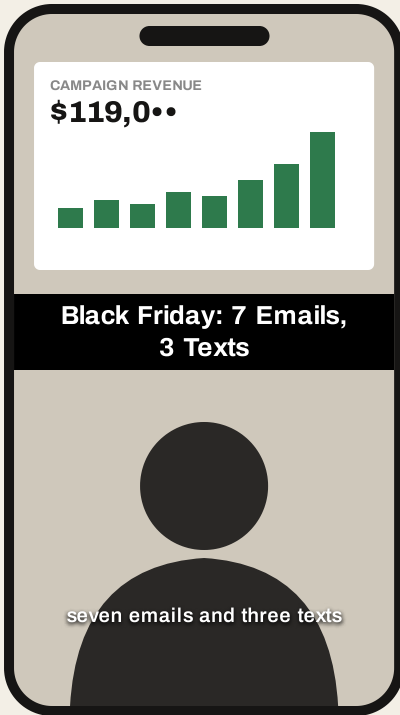

CAMERA: USE THE IPHONE 17 PRO

- Back camera, **4K 30fps**. A team member hits record, or use a tripod and the iPhone's mirroring/remote.
- Tap your face, then drag the sun down a little. Lock it.
- Office or the Canary Wharf flat. Keep the same spot for the whole session.

The ZV-E10 is fine too, but the iPhone is faster and already vertical.

THE LOOK

Plain and direct. Just you talking to camera, with the proof on screen above your head.

Top: the real screenshot. Revenue, the email, the flow. Brand names blurred.

Middle: a short title in a black box.

Bottom: you, plus small captions.

We handle all of this in the edit. Your job: talk, and send us the screenshots each page asks for.

Most videos look like this. The rest are quick formats: rankings, whiteboard, skits. The next two pages show how to film each one.

HOW TO FILM EACH FORMAT

TALK + PROOF

~8 MIN

Talk to camera. Leave the top third empty. We put the screenshot there.

STEAL THIS EMAIL

~10 MIN

Screen record a slow scroll of the email first. Then film yourself talking about it.

WHITEBOARD

~12 MIN

Stand at the whiteboard. Draw it as you explain it. Phone on a tripod, whole board in frame.

RANKING

~12 MIN

For each item: say the name, the tier (S to D), and one sentence why. We build the tier chart.

TEAM ASKS, YOU ANSWER

~12 MIN

A team member reads each line off camera. You answer, then give one sentence why.

BAD, BETTER, BEST

~5 MIN

Sit low in frame. Look up and point left "Bad", middle "Better", right "Best". 3 times, then "Follow for more." Film it 3 times.

FOLLOW THESE PEOPLE

~5 MIN

Sit low in frame. "If you suck at ____..." point up "...follow these people." We put the accounts above your head.

FORMATS, CONTINUED

POV SKIT

~12 MIN

No talking. Act out each beat and exaggerate it. We add the POV text and any voices.

TWO-CHARACTER SKIT

~15 MIN

You play both characters. Swap jacket or seat between characters. Film all of A's lines, then all of B's.

GREEN SCREEN NEWS

~8 MIN

We put the news headline behind you. Talk to camera like you're telling a friend what just happened.

BORROWED CREDIBILITY

~10 MIN

We send you the clip. Play it on a laptop, film yourself watching, then give your reaction to camera.

LISTICLE

~5 MIN

No talking. Film 60 seconds of calm B-roll with space at the top. We add the list on screen.

STREET INTERVIEW

~30 MIN

One person films, you hold the mic. "Quick question for you, would you be up for being in a video?" Then ask.

DAY IN THE LIFE

ON THE DAY

Film short clips throughout the day. We cut it together.
